

Dear Sir The music and movie industry is trying to make it illeagle tobe a ham and use didital and analog converters and hams us paket an other form os digital communicationsfor lots of reasons as well as in emergencys to relay information and as a ham i think when a person buys a cd or casstette or some for of music it is the property of the putchaser to do with as they please and if they want to swap it out with other people on the internet its theirs to do so and the industry,s should mind their ownbuisness and stay away from peoples lives
